

## ELECTRODELESS CONDUCTIVITY PROBES

SI 315

SI 315.1

### SI 315 - SI 315.1

Electrodeless Conductivity probe + Pt100 for In-line and immersion applications.

Suitable for microtransmitter 080315 and C2055 controller.

**Cell constant:**  $K = 1$  approx.

**Body:** PVDF in contact with the liquid

**Temperature sensor:** Pt100 enclosed

**Operating Temperature:** 110 °C max.

**Operating Pressure:** 3 Bar max. at 25 °C.

**Length:** 200mm.

**Diameter:** 34mm.

**Cable:** 3mt.

**Fixing SI 315:** by fitting SZ724

**Fixing SI 315.1:** DN 32 tapered collar for DIN 11851-52

**Option:** Non standard length.
